Generic

Custom Single-Color (Red or Blue Only)

Custom Black and White

Custom Full-Color (Picture Merge Shown)

Additional Services \$2 Each

Name or Picture Merge

Add custom names and photos to badges.

Hole Punch/Badge Clip

Pre-punched holes and optional snap clips for each badge.

Custom Encoding

Custom numbers printed directly onto individual cards.

Add-On Products and Accessories 25

PrintReader sold separately with certain hardware.

Many items are for specified devices only.

ACCESSORIES AND ADD-ONS (PARTNER POINT DISCOUNTS APPLY IN CART)

Badge Rack \$49.95

Protect your badge cards from bending, damage, general wear and tear, or getting lost with a durable steel 40-card badge rack.

PrintReader Biometric Add-On \$489

Add a PrintReader unit for biometric fingerprint punching. (Check specific hardware models for compatibility)

Automotive Power Inverter \$65

Power your time clock from a standard automotive 12-volt cigarette lighter outlet.

Badge Swipe Cleaner (Z14, Vx610G) \$2

This presaturated disposable cleaning card removes dirt, magnetic oxides, lotions and other contaminants from all types of card readers.

Badge Card Clip and/or Hole Punch \$2

Add a badge card clip to employee time cards.

Bell Relay Kit (Z18) \$30

The Bell Relay Kit allows your Z18 timeclocks to activate a 3rd-party bell/alarm system at user-defined intervals

Mag-Stripe & Proximity Cards (See chart)

Take advantage of custom full-color, custom single-color, custom black and white, generic, encoded, mag-stripe and "Mango" proximity cards.

Key Fobs (Z11, Z14) (See chart)

Two different key fob options are available. Black leather or blue plastic. Punch IN/OUT with one quick swipe.

Power Over Ethernet Converter (POE) \$75

POE module obtains power from a standard Category 5 Ethernet cable which meets IEEE 802.3af standard. Two pairs of input in built-in module.

Battery Backup \$69

Provides uninterrupted power or in the event direct power is not available, the 12V (or 5V) Mini-UPS Battery Backup ensures you remain operational.

Product Guide

TimeWorksTouch®

Intelligent, interactive clocks powered by the leading cloud-based timekeeping service TimeWorksPlus.

TimeWorksTouch combines the latest in time clock technology with industry-proven, cloud-based time and attendance services. Streamline punch and payroll activities with greater accuracy to give managers powerful labor management and cost control tools.

Features

- Biometric fingerprint scanner
- 7-inch color touchscreen
- Schedule enforcement
- Ethernet punch transmission
- PIN entry
- Break Tracking
- Wi-Fi & battery backup
- Wall mount option

Solution

Eliminates missed and unmatched punches, auto-syncs timekeeping and payroll systems and significantly reduces processing time.

Accommodate customized pay rules, compliance requirements and employee types.

Product Guide

Z14

The Z14 is a practical timekeeping solution that offers employers valuable labor management technologies through two device options, including a proximity-based unit or magnetic stripe card reader.

With the Z14 employers benefit from a practical, affordable, real-time solution (Ethernet-enabled) with superior internal processor and memory capacity.

Features

- Magnetic swipe or proximity card
- Key fob options also available
- Ethernet punch transmission
- High durability
- PIN Entry
- Wall mount option
- Instant feedback
- WebClock optional

Solution

Ideal for quick and easy implementation. Cards can be customized in a variety of ways, with options for key fobs as well.

\$475

Proximity Card

\$559

Magstripe Card

Badge Cards

Your cards can be custom-printed with specific information, such as employee names and numbers.

Custom card printing is also available in four color, two color or black and white.

Product Guide

Z18

The Z18 is a feature-rich timekeeping solution that offers employers a wide variety of valuable labor management technologies through a practical timekeeping device.

The Z18 delivers superior value and features with its integration of timekeeping and universal proximity badge card access. It connects to the Web in real-time (Ethernet) and offers additional value in its ability to support a “bell chime” and biometric employee identification with PrintReader.

Features

- Universal proximity badge
- PrintReader biometric compatible
- Hand geometry scan compatible
- External bell support
- PIN Entry
- Pro wall mount
- Instant feedback
- WebClock optional

Solution

The Z18 is primarily chosen by employers for its universal proximity badge support allowing for the integration of a time clock with the building’s existing proximity system.

\$679

Universal 3rd-Party
Proximity Reader

Multi-Use Clock

To use the Z18 with your existing proximity badge cards a Wiegand-compatible external card reader must be purchased from a third-party source, such as your corporate property management group or contracted security vendor.

Product Guide

Z33/ Z34

The Z33/Z34 is a feature-rich timekeeping solution that offers employers a wide variety of valuable labor management technologies.

With the Z33/Z34, organizations benefit from a time clock with a built-in biometric fingerprint reader and an on-screen fingerprint view to assist employees clocking in/out. This affordable biometric option also connects via Ethernet for real-time access to employee punch data.

Features

- Biometric Fingerprint Scanner
- Rounded or square cosmetics
- Ethernet punch transmission
- High durability
- PIN Entry
- Wall mount option
- WebClock optional
- Non-gel sensor

Solution

The solution for companies who face the severe cost associated with employee “buddy punching” or employee time theft.

\$659

For Z33 rounded
or Z34 square.

Z34 (Square)

Product Guide

HandPunch GT-400

The HandPunch™ GT-400 from Schlage® is a sophisticated timekeeping solution that allows organizations to record and verify an employee's punch by the size and shape of their hand in real-time. The employee's hand becomes their badge.

The HandPunch GT-400 is robust, enabling employers to more effectively capture a biometric punch in diverse environments where employees may possess worn, dirty and damaged prints. This can all be done while preserving the employee's privacy by not using finger or hand prints.

Features

- Hand geometry scan
- PrintReader biometric compatible
- Instant feedback
- WebClock optional
- PIN Entry
- Pro wall mount
- External bell support

Solution

Well-suited for increased security or when employees possess worn, damaged or dirty prints. Also for states or jurisdictions where using fingerprint biometrics is regulated and/or must be considered voluntary.

\$2,900

Hand scan verifies
size and shape

Topography

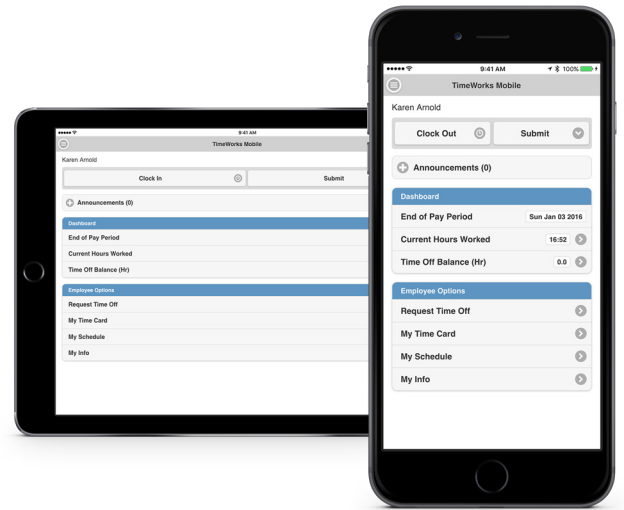

Has the sophisticated ability to capture employee punches using the size and shape of the employee's hand as opposed to other biometric models that target an employee's fingerprint.

Product Guide

TimeWorksPlus Mobile App

Empower your organization and cut down admin time across your company. From employees clocking in/out to supervisors approving time cards, get the convenience you need with the TimeWorksPlus mobile app with PinPoint GPS.

Features

- Manage timekeeping on-the-go
- View/submit PTO requests
- View schedules & personal profile
- Manage passwords remotely
- GPS stamped entries
- View time cards
- Approve time cards
- Manage absences

Solution

The TimeWorks Mobile app will give your employees complete freedom to punch and manage time from wherever they are while providing supervisors perfect visibility. You'll know who's early, who's late and who's absent—and where they were when they clocked in. And with visibility like that, employees will become more accountable and productive.

Product Guide

WebClock

WebClock offers the ease of clocking in and out through a standard web browser. With no software to install and no hardware to maintain, tracking your employees' punches in real-time has never been more simple.

WebClock also enables employees to check their time card and/or schedule over the web. Supervisors benefit from the convenience of online access for editing employee time cards from any web-enabled workstation.

Features

- Clock IN/OUT anywhere
- Mobile friendly
- No hardware to setup/install
- Enter shift-related information
- Job codes, mileage
- Clock prompts
- Collect tip entry

Solution

WebClock is ideal for organizations desiring employees to clock in through a web-browser from their workstation or a designated computer within the building. A typical environment for WebClock is an office setting or workspace where employees have access to a computer with Internet access.

FREE
